

ANKUSH KUMAR JAGGA

Full-Stack Software Developer

ankushjagga18@gmail.com • +91 98760 54247 • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Software Developer with 2+ years of experience building scalable, production-grade web applications using React, Node.js, Express, SQL, and Redis. Skilled in designing secure REST APIs, integrating payment gateways, building background job pipelines, and optimizing performance. A strong problem-solver who ships features that solve real-world business needs.

EXPERIENCE

Software Engineer

Sep 2024 – Present

Master's Union

Gurugram, India

- Designed and integrated Razorpay payment flows, enabling seamless online transactions and improving checkout success rates.
- Built job scheduling and background workers with BullMQ and Redis, automating internal processes and reducing manual effort.
- Implemented rate limiting and request validation to strengthen API security and prevent misuse.
- Optimized SQL queries and added pagination, reducing API response time by ~40% on large datasets.
- Developed responsive frontend features using React with Redux Toolkit, Redux Thunk, and RTK Query for efficient state management.
- Collaborated in an Agile team, participating in code reviews and shipping features to production on a regular cadence.

Software Developer Intern

Mar 2024 – Sep 2024

Master's Union

Gurugram, India

- Built CRUD modules across the stack using React, Node.js, Express, and Sequelize ORM.
- Contributed to the Dinero project, delivering both frontend and backend features.
- Developed blog management functionality, including post creation, updating, and deletion.
- Strengthened practical understanding of MVC architecture and RESTful API design.

PROJECTS

BookHouse — Full-Stack E-Commerce Platform | *React.js, Redux Toolkit, Node.js, Express.js, MySQL, Sequelize*

- Built a complete e-commerce system with cart, checkout, and Stripe payment integration.
- Developed an admin dashboard to create, update, and delete products.
- Implemented authentication, role-based access control, and API request validation.

Foody — Recipe Management Platform | *Node.js, Express.js, MongoDB, Handlebars*

- Built a recipe submission and discovery app with user authentication and authorization.
- Created an admin panel for managing recipes and categories.
- Implemented secure session-based login using middleware.

EDUCATION

B.Tech, Computer Science and Engineering

Aug 2020 – Jul 2024

Baba Farid College of Engineering and Technology — CGPA: 8.2/10

Bathinda, Punjab

Senior Secondary (12th), Non-Medical

2019 – 2020

G.T.B. Khalsa Public School — 87%

Malout, Punjab

TECHNICAL SKILLS

Languages: JavaScript (ES6+), C++, SQL, HTML5, CSS3

Frameworks & Libraries: React.js, Redux Toolkit, RTK Query, Node.js, Express.js

Databases & ORM: MySQL, MongoDB, Sequelize ORM

Tools & Platforms: Git/GitHub, Redis, BullMQ, Postman, VS Code, Microsoft SQL Server

CERTIFICATIONS

Courses: JavaScript (Proper Dot Institute, Udemy) • React (Tech Academy, Udemy) • Node.js Training (Solitaire Infosys)
